This kit takes you from "no idea what to sell" to "product live, first sales coming in" in one week, using AI to do most of the heavy lifting.

How to use the prompts

1. **Copy** the prompt into your AI assistant.
2. **Replace everything in [BRACKETS]** with your own details. The more specific you are, the better the result.
3. **Follow up.** The first answer is a draft. Reply with "make it shorter", "more casual", "give me 10 more" or "rewrite for a 19-year-old beginner".
4. **Add your voice.** Edit the output so it sounds like you. People buy from people.

Pro move: set up your "brand brief" once. Paste this at the start of every new chat so the AI always knows who you are:

You are my content and business assistant. About me: I run the Instagram account [HANDLE] about [NICHE]. My audience is [WHO THEY ARE, AGE, SITUATION]. They want [DESIRED RESULT] and struggle with [MAIN PROBLEM]. My tone is [e.g. direct, hype, friendly, no fluff]. I sell [PRODUCT/OFFER] for [PRICE]. Keep answers practical and skimmable.
